Dear Viewer,

Greetings from the IISSM!

After the fire accident in Mumbai claiming 14 precious lives at the beginning of the year, there was yet another fire accident in Delhi's Bawana area on 20th Jan 2018. The massive fire ripped through the two-storied factory claiming as many as 17 lives. According to a Delhi fire services official, the blaze started from a firecracker factory which has a rubber factory atop it on the second storey. It is a cause of concern to all of us.

We at IISSM constantly strive for safe and secured environment through simple measures such as timely fire safety audits, servicing of electrical and electronic appliances, maintenance of fire equipments and so on. As we enter into the second month of the year with our financial budget going to be announced, IISSM also gears up to conduct new programs starting with Access Control, CCTV & Visitors' Mgt slated for 9th & 10th Feb 2018. We look forward to your valuable comments and suggestions.

Wishing you Happy Maha Shivratri and Safe days ahead.

Good Luck & God Speed!
