

A graphic featuring the word "SECURITY" in large, bold, metallic 3D letters. The letters are set against a dark, textured background that looks like a close-up of a metal surface or a zipper. The lighting creates highlights and shadows on the letters, giving them a three-dimensional appearance. The entire graphic is framed by a bright yellow border.

Certified Bank Security Manager Course

Introduction

Security aspects in the Banking sector in India has remained an area of concern due to inadequate security system in place, lack of security awareness at functional level and our tendency to take things on face value leading to frauds and losses. As per the Finance Ministry's statistics, the frauds in our banking system have increased rapidly over the past 4-5 years resulting in a colossal loss of over one thousand crore of INR every year. Therefore, there is a strong need to sensitise this sector through professional updates on matters related to Banking Security.

Objective

To update the knowledge and practical skills of all the participants related to Bank Security Management so as to enable them formulate a sustainable and comprehensive Disaster Management Plan for their assets and activities.

Who should attend ?

The programme could be attended by Bank Security Officers, all Security Service Providers or by those related to overall security management/administration.
