CSP (VC) COURSE : INAUGURATION IN PROGRESS

Brigadier AK Pathak (Retd) & Col (Dr.) M P Sen (Retd) : IISSM Faculties
 Brig (Dr.) VK Dutta (Retd) and Col Sumit Monga(Retd) : Guest Faculties

All Participants have also shown interest in our activities like Seminars, Conclaves and Membership in addition to future association.

Overall the course was very well appreciated.

Mr Elyas Mukarab Khan, Director (Loss Prevention) , Hotel Coral Strand & Savoy Resort Spa, Seychelles

"In these 4 days session, I attended 16 modules on different topics and last one stimulation exercise...after completing it I learned the core values of professionalism which I can invest into daily work schedule to further enhance my growth and my company reputation".

Mr Konda Balasundaram, Senior Manager Security & Safety, M/s Salarpuria Sattva, Hyderabad

"I just wanted to share my feedback on last week's professional and well-presented training. I usually go to these events with an agitated feeling, but your training was completely different, proves just how powerful and influencing the training was. I was particularly impressed with the faculties Col (Dr) MP Sen & Brigadier Ashok Pathak This is exactly what I would expect from training. You have done a wonderful job. Thank you very much.

It was an Excellent & very informative of the session for the working professionals".

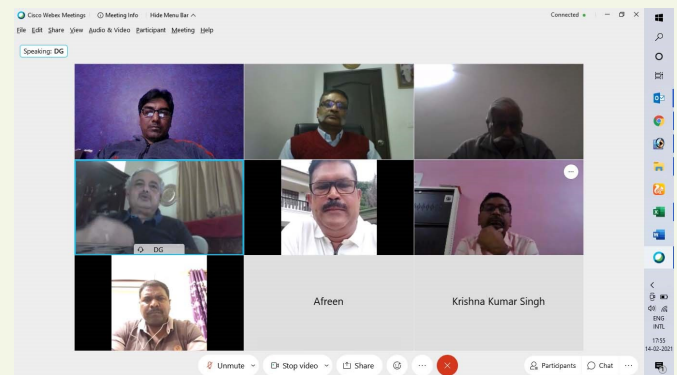

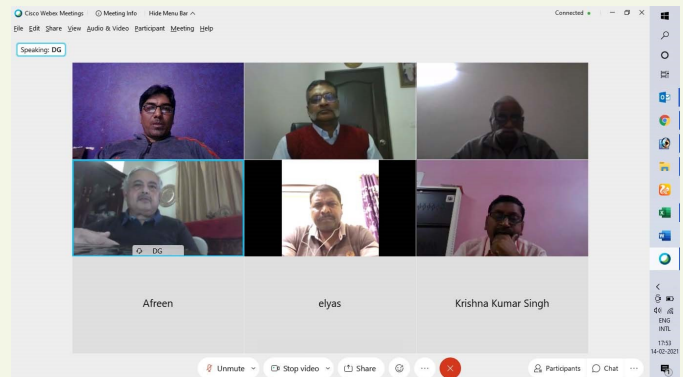

Mr Krishna Kumar Singh, Area Loss Prevention Manager, Reliance Jio Infocom Limited, Ghazipur

"Faculty is simply impressive, explaining in details... giving example and real life scenarios... Knowledge boosting and interactive".

Mr. Vivek Vasant Rao Rane, Sr Branch Manager, SIS India Pvt Ltd, Pune

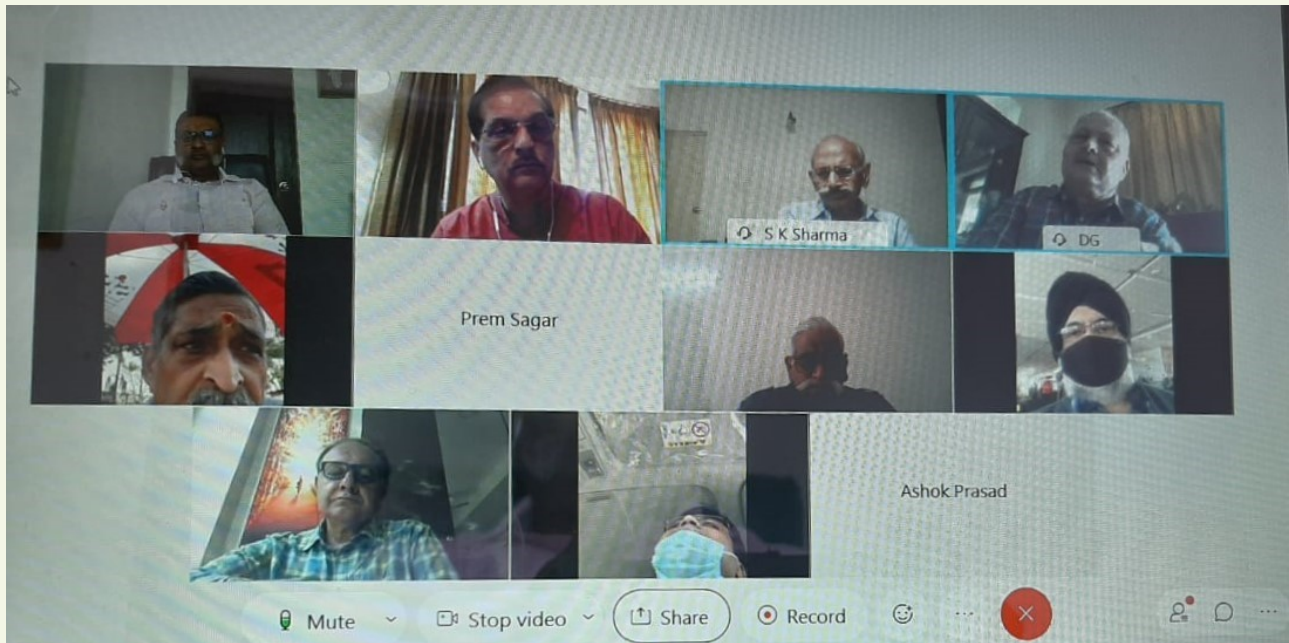

"This is very good program and gives very in-depth knowledge".

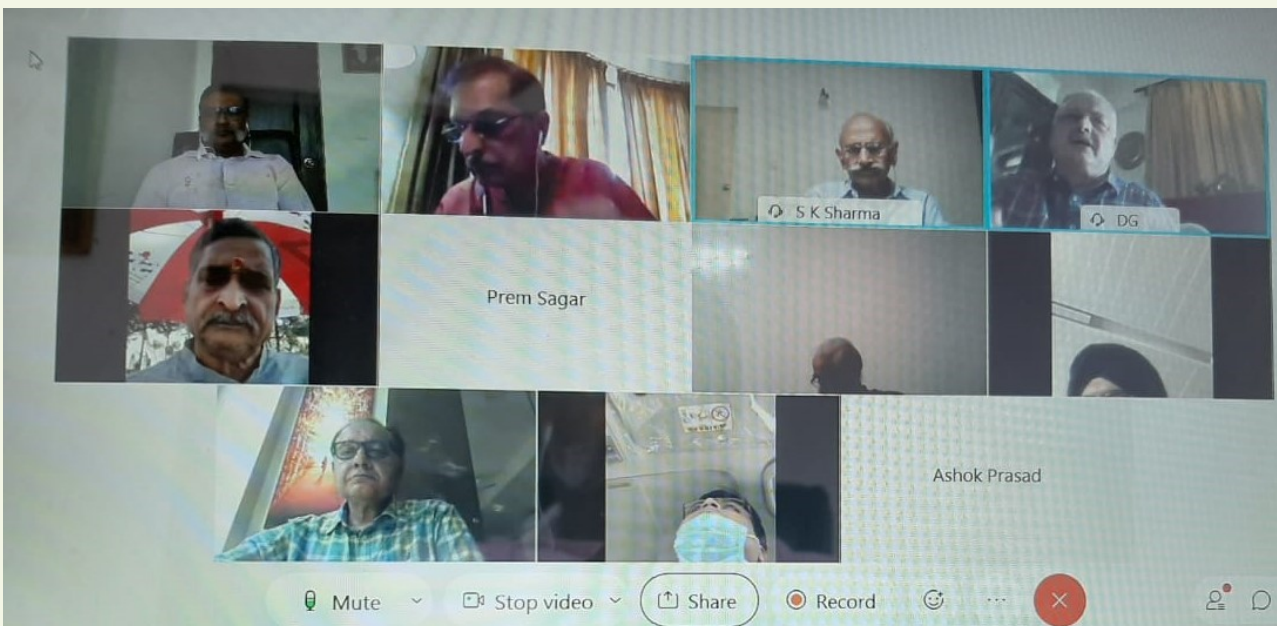

CSP (VC) : CLASS IN PROGRESS

Executive Committee Meeting (27 Feb' 21)

Executive Committee of the IISSM met on 27 Feb'21 on the virtual platform. The Meeting was Chaired by Mr. SK Sharma, IPS (Retd). Many issues related to the IISSM's regular activities were discussed. The meeting was Co-Chaired by the Exec Chairman, Sri RK Sinha, Former MP (Rajya Sabha). Lt Gen Prem Sagar (Former DG, IISSM) attended the meeting as a special invitee.

EXECUTIVE COMMITTEE MEETING IN PROGRESS

Dear Readers,

Greetings to you all!

We started this year with a positive note that Covid-19 was on the wane, at least in India but that advantage seems to have been lost as we are seeing a gradual rise in numbers again. But that does not mean, that the situation has become critical. Unfortunately, we became too complacent about it and if it goes unchecked, days will not be far when we see a repeat of 2020. While in India, Covid-19 was gradually receding but elsewhere in the world in European nations specially UK, France, Germany, Spain etc, USA and some of the Latam countries like Brazil, Mexico, Chile, Peru the situation has not been very happy. They have been facing the pandemic as never before. Death Rate per million populations in these countries are very high, if compared to India, Belgium's figure stands at 1872, UK-1746 and USA -1513, wherein India's DRM is -113 till now, is something unbelievable.

In the month of June –July 2020, the world media was forecasting that it will be 'Doomsday' for India and everybody was of the opinion that it will be disastrous. Fortunately, we as the nation, have been successful in controlling the virus to a great extent, and now India is the destination: 'HOPE'! Because we are biggest manufacturer of the vaccines and the world realises that India neither takes any politico- diplomatic advantage nor taking benefit of the situation commercially while sharing the 'Sanjeevani' with the world. It has answered the distress calls

positively to the world, be it a smallest island country, the Republic of Dominica whose President became emotional while thanking India for its benevolent and philanthropic aid with Vaccine, or to a mighty powerful and developed nation like Canada whose Prime Minister did try to damage India by meddling in the internal affairs of India and have been nurturing anti-India elements since long for political expediency.

The success in curbing the Virus does not anyway allow us to be complacent as we are not free from danger which is being seen in some of the states. Neither can we lower our guards nor can we afford to apply countrywide Lockdown like last year. Presently, states like Maharashtra, Kerala, Madhya Pradesh and Punjab are adding numbers day by day and accounts for over 75% of the cases in India. The Government of Maharashtra has realised the problem and started applying Covid protocols (partial lockdown, mask and social distancing) strictly in some of the affected districts. Hope these measures bring in desired results, although it is being said that arrival of new variants (South Africa and Brazil variants) may cause serious damage as these are mutated virus and showing strong resilience against the vaccines. Thus, we should be cautious!

The winter had been harsh this year and almost at the fag end of the season. On the Northern areas of Himalayas, at Tapovan we were hit by a natural disaster wherein a Glacier fell and set an avalanche down the River and wrecked havoc, washed away the Rishi Ganga Hydro-

electric power project and over a dozen of villages wherein many people lost their lives and many more missing. This may be the fall out of the rising temperature of the globe, negative fallout of climate change. We at the IISSM have been raising this concern and spreading awareness amongst the students, professionals and all stake holders during our courses, Seminars and International Conclaves.

At the end, I wish you good health and Happy Holi.

Jai Hind!

Col (Dr.) MP Sen
